Projects

Amachahou `in progress`

Producer and DevOps · team of 16 · since Sept. 2026

2.5D action-adventure game in Unity 6, shown as a playable demo at the FIJ in February 2027.

- Coordinate the team's 6 disciplines around dated milestones.
- Set up tracking in GitHub Projects, with one task template per discipline.
- Wrote a 17-part Git guide and rules against conflicts on Unity scenes.
- Built a Unity tool to tune the game's balance without touching the code.

Gravewell `released 10 Oct 2026`

Game design, direction and release · solo project · 2026

Pixel-art roguelike published on itch.io.

- Shipped on the planned date thanks to short milestones and early scope cuts.

Drealm `completed`

Level design · team of 12 · 2025 – 2026

Party game with 4 mini-games, local multiplayer.

- Built the islands and the 3D search phases, with task tracking in Jira.

Portfolio `live`

Astro, GitHub Actions, GitHub Pages · 2026

My website, run like a team project.

- CI on every pull request: build, links, image sizes, spelling, Lighthouse.
- Actions pinned by SHA, Dependabot, protected main and one release per version.
